

MediaShout V4.5, b247 FIXES

APPLICATION

- MS-194 Applications tab: The list of programs to choose is the same for all types of editors
- MS-471 New My Shout folder is created, if C:\My Shout folder is used as default and user renames this folder.
- MS-638 Change 'SlideShow Mode' to "Remote Control Mode"
- MS-642 Incorrect version is displayed on 'About MediaShout 4' window
- MS-643 In the installer, the Quicktime item should be called "Install Quicktime"
- MS-644 It is impossible to disable cue playing from the Viewers
- MS-646 Spanish: Incorrect symbols are displayed on "About MediaShout 4" window
- MS-652 Boxer cue appears in Missing Media dialog, should be Cue Deck
- MS-666 If a user installs v4 for the first time, the Mediashout said that some components are missing(Backup library and User Data files aren't created yet).

CUE EDITOR

- RENO-3116 Setting advance for a cue on FG tab has no effect
- RENO-3263 If Blank is the last page in Play order, setting auto-pagination other than 'Allow splitting' results in 'Invalid argument'
- MS-592 User can only enter 99.9 seconds in Advance Timed field in the FG tab (should be 9999.9)

STAGE DISPLAY (ALL TEXT-BASED CUES)

- MS-148 If user adds some text in FG tab, Stage text is changed to the previous page's text
- MS-543 In a multipage cue, if a page is set to be skipped, the Stage Footer still shows it as the next page.

LYRIC CUES & SONG DECK

- MS-637 SongSelect API: add 'Add SongSelect song to your Song Library' checkbox on Tools>Settings>Controls
- MS-648 "Database error" appears, when user tries to add some song to the specific Songs3.mdb.
- MS-654 Cosmetic changes on Tools/Settings/Songs/SongSelect window
- MS-655 Incorrect data appears, when 'More' button is pressed on Songs Deck in SongSelect mode and '(Show all)' is selected
- MS-660 Time Trigger settings are not being saved to the Song record
- MS-683 When V3 script is opened in V4, the song is used with parameters from the Songs4, not from the Song3

BIBLE CUES & BIBLE DECK

- MS-668 Blank and Title should be added in Play Order in [Blank] 1 format, not as 'Genesis [Blank] 1'.

TEXT CUES & TEXT DECK

RENO-2909 Copying and pasting new pages in Text cues are ignored when clicking "OK" button

SLIDESHOW CUES & POWERPOINT

MS-5651 Application crashes if select Out control on Page level on FG tab and then select Cue level

MS-653 PowerPoint presentation that has been marked as 'Final' in PowerPoint, cannot be opened

MS-667 If you open a script in v4 that was created in v3, many of the PowerPoint files that are PPT versions will not play correctly.

TIME TRIGGERS

MS-662 If song or Bible doesn't have Blank or Title page, the time trigger doesn't work.
