

## MediaShout V4.5, b254 FIXES

### APPLICATION

- MS-635 Setup Assistant cannot find the Songs3.mdb, when it is placed in C:\My Shout.
- MS-676 Setup Assistant: When Song Library is locked and Setup Assistant is running(Import from v3 library), the Lock setting in Tools>Settings>Songs will be unchecked.
- MS-677 Setup Assistant: 'Turn on my Extend Desktop', should be 'Turn on my Extended Desktop'
- MS-678 Added two new troubleshooting tools.
- MS-679 Add an option to the Edit menu: Convert > Convert Text to Song Library
- MS-680 Setup Assistant: 'MediaShout 4 must be closed to apply these changes.' message appears, even no changes were made.
- MS-690 Update MediaStore link
- MS-692 Modified API parameters
- MS-659 When AVG Free is upgraded to AVG 2012, MediaShout v4 won't launch.
- MS-696 Evaluation launch: drop the second window that asking which Edition to launch
- MS-697 Installer: The separation of update and full installer
- MS-703 Edit > Select Cues > Section: incorrect command runs
- MS-704 Remote Control Mode: Mouse doesn't work as remote in Remote Control Mode
- MS-707 Cracked license should not work
- MS-709 Hyperlink should be valid in Update installer.
- MS-712 When read-only file is saved using 'Save As' , this file still displayed as Read-only.

### CUE EDITOR

- RENO-2715 Multiple homogeneous cue selection: Apply a template to cues and select Undo button --> changes are not reverted.
- RENO-3222 Multiple-cue selection: if a template with auto-insert is applied to a few cues, title and blank are not inserted.
- MS-135 Time Trigger: Incorrect reference on Cue Editor
- MS-164 Time Triggers: Incorrect value of Time Trigger appears when reference file is audio and Soundtrack layer is set to End with Cue
- MS\_176 Time Triggers: If End with Cue option is changed (unchecked) Time Trigger shows incorrect time values during recording
- MS-486 If a Soundtrack is applied to a Page and Page Breaks are added, the Soundtrack is applied to the every page created by the Page Break
- MS-670 Time Trigger: If Lyric with sub-pages, the Time Trigger is recording the virtual pages
- MS-688 Soundtrack is not applied, if user types soundtrack name in field and press select button.

### TEXT-BASED CUES

- RENO-3148 Multiple homogeneous text-based cues: applying a template to multiple cues doesn't apply FG transition settings to all cues.
- MS-495 The footer covers last line of text.

## **LYRIC CUES & SONG DECK**

- RENO-3021 If a template is applied to the whole Lyric cue, its BG is not applied correctly.
- RENO-1131 SongSync: if Update is selected in the reconcile dialog, the process repeats endlessly
- MS-568 Applying a template to multiple cues, does not apply the First and Last Blank pages.
- MS-617 When right-clicking on song from SongSelect & selecting 'Add to Song Library', no 'Import Progress' window should appear.
- MS-673 SongSelect changes.
- MS-684 Lock Song Library: Reconcile is working even if Song Library is locked.
- MS-686 Reconcile dialog: the titlebar should be 'Apply Changes to Multiple Copies of Lyric Cue? ', not just 'MediaShout'
- MS-695 "Interlude" should be included as a stanza type to import
- MS-702 When creating new stanzas by cutting from previous stanzas, the action behaves like "Invert Selection".

## **BIBLE CUES & BIBLE DECK**

- RENO-2941 Selecting 'One Verse per page' after 'Allow Splitting' works incorrectly
- MS-665 The incorrect name of Blank page is displayed, when user adds Blank page in 'One Verse Per Paragraph' mode.

## **VIDEO FEEDS**

- MS-614 Support for HD webcams

## **KEY TEXT & COUNTDOWN CLOCK**

- MS-649 Application crashes, when user edits Format on BG tab for Key Text/Countdown Clock cue.
